### SKILLS

- ❖ Java
- ❖ HTML, CSS, JavaScript
- ❖ React
- ❖ MongoDB
- ❖ Python

### EDUCATION

- ❖ B.tech AIML|GCET, Greater Noida (2022-2026)
- ❖ XII (CBSE) | SPSEC, Kanpur 94% | 2021

### ACADEMIC PROJECTS

#### ❖ Expense Tracker Website

**Technologies Used:** HTML, CSS, JavaScript

**Description:**

Created and implemented a dynamic expense tracker web application to assist users in efficiently managing their expenditures on a daily basis. The application enables users to add, view, and remove transactions while displaying real-time income, expenditure, and balance calculation. Utilized core features with JavaScript for DOM manipulation and data processing, and developed a neat, responsive UI with HTML and CSS. The project demonstrates expertise in front-end development, UI design, and client-side logic implementation.

#### ❖ Image Compressor Website

**Technologies Used:** HTML, CSS, JavaScript

**Description:**

Designed a responsive web-based image compressor that allows users to upload and compress the file size of images right in their browser. Used client-side JavaScript to compress images without sacrificing important quality, enhancing performance, and decreasing bandwidth usage. Incorporated an easy-to-use user interface using HTML and CSS for smooth user experience. This project showcases expertise in front-end web development, client-side scripting, and optimization techniques.
